

What is the course about?

The course covers a wide variety of topics related to sports and the sports industry. Practical participation and coaching in sport are included within the course. It will allow students to develop the skills, knowledge and understanding to deliver sport and physical activity to an individual or group of participants; plus identify those who would benefit most from participation, select which sport or physical activity would be best for them, and how to organise, co-ordinate and facilitate different events or programmes of activity that allow people to actively engage in and enjoy sport and physical activity.

Course content

Units of study include:

- Body systems and the effects of physical activity
- Sports coaching and activity leadership activity
- Organisation of sports events
- Sports organisation and development
- Sports injuries and rehabilitation

Assessment

It will be assessed through both internal and external assessments.

Career pathways

Study sport-related degree courses at higher education. The course carries up to a maximum of 56 UCAS Tariff points.

Employment opportunities: sport development officer, community sport officer, senior sports coach, senior activity leader, sports coaching, sports physiotherapy, leisure centre management.
